INSTRUCTIONS FOR USE

MERIVER FISHING PASTE

DESIGNED TO TEMPT THE MOST WARY FISH

- ✓ ***Natural, biodegradable formula***
- ✓ ***Powerful scents that last in the water***
- ✓ ***Easy to mould – ideal for pole, feeder or float fishing***
- ✓ ***Perfect for all our coastal fish***
- ✓ ***No dyes or harsh chemical additives***

HOW TO USE

1 **Take a small amount**
About the size of a grain of corn for a size 10 hook.

2 **Mould it around the hook**
Form a drop shape without covering the point. If the paste is brittle, warm it between your fingers.

3 **Dip the hook in the water**
A protective, scent-releasing gel forms and improves hold.

4 **Cast and let it work**
The natural scents spread. Renew the paste every 15 minutes if needed.

FISHING TIPS

- With a float: set the depth where fish feed and strike as soon as the float dips.
- With a bubble float or bombarda: long leader and a slow retrieve with pauses.
- Keep the tub closed between baitings: the paste stays soft and fragrant.

THE RANGE

Anchovy · Shrimp · Aniseed bread · Cheese · Crab · 150 g tub · 1 kg ball paste

STORAGE

Close after use. Store away from sunlight, heat and frost. Fishing product: not for consumption, keep out of the reach of children.
