INSTRUCTIONS FOR USE

PRORIVER TROUT PASTE

STRONG HOLD ON THE HOOK – SUPER ATTRACTANT

- ✓ ***Strong hold on the hook***
- ✓ ***Super attractant, scents released slowly***
- ✓ ***6 flavours, classic and glitter versions***
- ✓ ***Several colours to suit the water***
- ✓ ***Made in France***

HOW TO USE

1. **Take a little paste**
   A small pea-sized ball is enough.
2. **Mould it around the hook**
   Cover the hook near the eye without blocking the point.
3. **Wet it**
   Dip the line: a thin film forms and improves the paste's hold.
4. **Cast and fish**
   The paste slowly releases its scents and draws trout to the bait.

COLOURS: AS IMPORTANT AS THE FLAVOUR

Chartreuse	Orange	White	Black	Yellow	Natural brown
Coloured water, low light	Looks like eggs, clear water	Very visible in murky water	Sharp silhouette, very clear water	Flashy, active fish	Discreet, wary fish

Trout are very sensitive to colour: it is what makes the paste visible. Change colour with the water and the light, and always keep several in your box.

FISHING TIPS

- Bites stopped? Change colour: keep several colours in your box.
- Match the ball to the hook: small ball for a small hook, point always free.
- Ideal for the season opening and stocked waters.

THE RANGE

Cheese · Garlic · Vanilla · Biscuit · Shrimp · Anise · Classic or glitter · 90 g jar

STORAGE

Close after use. Store away from sunlight, heat and frost. Fishing product: not for consumption, keep out of the reach of children.
